maximum consideration because this would render the final product costly and uncompetitive. Moreover, the transfer was proposed to a joint venture company in which NMDC itself is a partner. At the same time, the Steel Ministry felt that NMDC should not be put to any pecuniary loss and should be compensated for the actual expenditure that it had incurred on exploration, feasibility and other preliminary works. The Steel Ministry, hence, proposed that the actual expenditure incurred as above, updated to current costs through an appropriate method to be determined by a recognised professional organisation such as the Institute of Cost & Works Accountants of India (ICWAI), should be recovered from the joint venture partner.

The Cabinet, in their meeting on 30.5.95, accorded approval to development of Bailadila 11-B deposit as a joint venture. Based on this, approval was accorded to NMDC on 13.6.95 to form the joint venture company and take other consequential actions. The interests of the local people and trade unions have been safeguarded by advising NMDC to stipulate in the joint venture agreement that the joint venture company will recruit all skilled, semi-skilled and unskilled workers through the Local Employment Exchange except to the extent that such workers are not available with the Local Employment Exchange. The joint venture agreement has since been signed on 10.7.95.
